#2

I don’t know what to do next.

WHAT’S HAPPENING?

You’re between steps. Everyone gets here. It doesn’t mean you’re doing it wrong.

TRY THIS

Pick ONE 10-minute move:

1. **Make it clickable.** What’s the smallest thing someone could see or tap? Build only that.
2. **Ask AI for a menu.** Paste: “Our problem is ___. We have ___ so far. Give us 3 next steps that each take under 10 minutes.” Pick one.
3. **Watch someone use it.** Show it to someone outside your team for 60 seconds. Fix the first thing that confuses them.

STILL STUCK?

Go back to your four lines (Our world is… /
It would be better if… / The problem is… / We might build…).
Read them out loud. What’s the next tiny piece
of “we might build”?

NEXT STEP

Flag a facilitator and say: “We have ___. We’re stuck on ___.”
