#8

What do I do while waiting for AI to finish?

WHAT'S HAPPENING?

AI is working. You're watching. That's dead time. Use it.

TRY THIS

Don't watch the spinner. Pick one:

1. **Write the next prompt** so it's ready to go.
2. **Test the last version.** Find what's broken.
3. **Grab screenshots** for your slides.
4. **Check in:** "What are you working on? What do you need?"
5. **Write one line** in your team notes: what just happened?
6. **Open a second AI chat.** Outline what comes next, or your 7 slides.

STILL STUCK?

AI working more than 5 minutes? Stop it. Ask for something smaller.

NEXT STEP

Make this a habit: every time you hit Enter, pick something from this list. Stay organized: keep one team notes doc with the plan, what's done, what's next, and prompts that worked.
