#12

I need an image, video, audio file, or other asset.

WHAT'S HAPPENING?

Your project needs a picture, icon, sound, or video, and you don't have one.

TRY THIS

1. **Make it:** ask your AI tool to create it. Describe the style, colors, and size. Or use Canva for Education.
2. **Find it free:** Pixabay (images, music, sound effects) or Unsplash (photos).
3. **Record it:** your laptop or phone camera and mic.

STILL STUCK?

Use a placeholder. Draw a box that says "picture of a dog here" and keep building. Swap it later.

NEXT STEP

Write down where every asset came from (for your slides). No photos of real people without their OK. Not sure if something's allowed? Ask a facilitator.
