#19

Can my AI take the screenshots?

WHAT'S HAPPENING?

You need screenshots for your slides. Your AI might be able to take them while you keep building.

TRY THIS

1. **Ask your AI:** "Take screenshots of our live site for our slides: the home page, ___, and ___. Make each one at laptop size and phone size. Save them as image files I can put in slides."
2. **Check every screenshot.** Right page? Easy to read? Ask for a retake if not.
3. **Put the best ones on slide 5** (See It in Action).

STILL STUCK?

AI says it can't take screenshots? No problem. Take them yourself: radiator #15 shows the keys.

NEXT STEP

Ask for fresh screenshots after each publish checkpoint, so your slides show how it changed. Need help? Flag a facilitator.
